HOW TO: CONNECT YOUR MOBILE DEVICE TO THE CLOUD

To create PDFs, store inspections, customize checklists, etc you need to connect your mobile device to the InspectARide cloud. Below are the steps for doing this once you have the InspectARide app installed on your device.

1. When you open the InspectARide app you will see a screen with several options. Tap the button at the bottom for 'Set Up Cloud'.

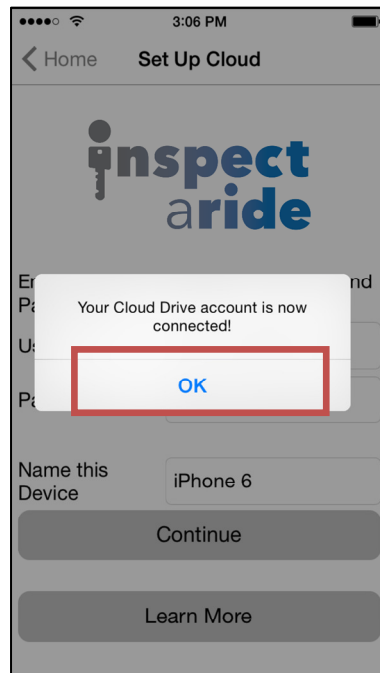

2. This takes you to a screen where you can enter your Username and Password. These will be the credentials that you setup when you created your account. Enter these along with a Name for the Device and tap on 'Continue'.

NOTE: You will need an internet/data connection to setup the cloud connection.

3. If you have successfully entered your credentials you will receive a message that says 'Your Cloud Drive account is now connected!'. Tap on 'OK' to continue.

4. Your Cloud Drive is now connected! You will be taken back to the opening screen of the app and at the bottom you'll be able to see how full your cloud drive is.
